

PARTING TOOL BLOCKS - INDEXABLE

- Parting Off Blocks are manufactured from Hardened Alloy Steel to avoid vibration while in operation.
- Excellent Clamping Force with the help of 3 & more Screws over the clamping Plate.
- Integral flexible clamping Applicable for both right and left hand turning operations
- A Very Suitable tool to be used on almost all lathes.
- Can be used both with HSS Blades & Carbide tipped Indexable Parting blades.
- Indexable Blades comes without Inserts. Picture is for reference only. Please order Inserts Separately.
