

BLOCK PLANE - CARRIAGE RABBET

- Ideal for fine trimming, smoothing end grains, and other rough wood surface.
- The quick-release cam-lock facilitates effortless iron removal, streamlining your workflow.
- Impact resistance cast-iron base with precision-ground bottom and sides.
- Durable epoxy coating for long-lasting protection.
- It has a A2 steel hardened blade set at a lower pitch than other planes, with the bevel up. It's usually small enough to be used with one hand.
- It's mainly used for end grain work, but can also be used for trimming, leveling, smoothing chamfer ends, trim flush to panel surface, round over, erase mill marks, square up small stock, bevel an edge, plane to a line, fit doors and other parts, sharpen a pencil.
