

BEVEL REVOLVING TUBE PIPE CENTERS

- Machining Pipes And Similar Hollow Shaft Materials With a High Thrust Capacity.
- Bevel Section Is Ground After assembly Running In Its Own Bearing.
- Designed to hold hollow & pipe Works.
- Manufactured from heat treated high carbon Alloy steel.

Cat. No.	MORSE TAPER SHANK	Capacity (mm)	
		Minimum	Maximum
GRC-7890	MT - 2	19	80
