

MINI QUICK CHANGE TOOL POST HOLDER SET -ALUMINIUM

GARVIN Quick Change Boring Bar Turning Tool Post Holder for CNC Mini Lathe

Quick change tool post, cutter holder are major attachment of ordinary lathe, is composed of a tool post and several toolholder, according to the needs of machining,

choose corresponding knife holder, can be carried out outside garden, surfacing, cut off, knurling, drilling, boring, reaming and other processing.

Material	Aluminum alloy
Tool Post	44x44x37mm
Boring holder	50x25x25mm
Capacity cut-off blade holder	50x25x25mm
Turning & facing holders	49x25x24mm
Mounting bolts	M8 & M10
Accuracy	0.01mm

Features:

- Applicable to the comparison method to measure the workpiece diameter, accuracy 0.01mm.
- Toolholder for the adjusting screw nut and tool, adjust installation height , easy to operate, shortening the time loaded knife.
- Each changing tools only takes a few seconds.
- High positioning accuracy, reset accuracy within 0.01mm range, the surface quality of machined parts, precision improved.

CAT. NO.	MODEL NO.	BLOCK SIZE	BORE	FOR LATHE SIZE	SET INCLUDE THE FOLLOWING
GTP-T40	T40	45 x 45 58 mm	8 mm & 10mm	7" x 10", 7" x 12", 7" x 14", 7" x 16", 9" X 16"	1 x Main Block ,2 x Turning and facing Holder (Standard)
