

SHOULDER PLANE 3 in 1

Versatile 3 in 1 Shoulder Plane

- This plane function allows for precise trimming and squaring of shoulders, which are the right-angle joints where two pieces of wood meet. It's especially useful for cleaning up tenon shoulders and ensuring a snug fit in joinery work.
- This is 3 in 1 Plane.
- Can Be Converted in Bull Nose Plane.
- Can Be Converted in Chisel Plane.
- Fulfill the tasks for fine cuts at sharp angles.
- Plane Body is manufactured from close grained cast iron.
- Hardened Replaceable Tool Steel Blade For Fine Cutting.
- Smooth Grinded Finish
